DETAILED ACTION

Election/Restrictions

Applicant's election of species 1 in the reply filed on November 15, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 21 and 22 to an invention non-elected without traverse. Accordingly, claims 21 and 22 have been cancelled.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The references cited within the IDS document, received on September 12, 2003 (paper no. 0903), have been considered.

Drawings

The drawings submitted on September 12, 2003 are acceptable.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 21 and 22.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance. The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding a method of manufacturing a semiconductor device as recited in independent claim 1, particularly characterized by connecting a laser oscillator with an irradiation optical system with an optical fiber having a *single core part*, wherein the laser oscillator oscillates a *near infrared beam*. Also, the examiner is interpreting an "optical fiber member having a single core part" to mean an optical fiber member which only has one fiber optic core, as opposed to a multi-core or bundled fiber optic member. Claims 2-20 are dependent upon claim 1. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The following references are cited as being particularly related to the applicant's invention: Yamazaki et al. (6,844,523 B2), Itoh (6,795,460 B1), Varshneya et al. (6,498,652 B1) and Amirkhanian et al. (5,349,590).
